Championing Women's Health *Across India*

Lyra Enterprises was founded with one purpose — to ensure that no woman or girl is left without access to menstrual hygiene products simply because of where she studies, works or lives.

As a Chennai-based direct manufacturer, we design, build and ship every unit ourselves — eliminating middlemen, keeping prices honest and quality uncompromised.

Every unit ships with full installation support, a **1-year on-site warranty** and dedicated after-sales service across all 28+ states we serve.

Direct Factory

We manufacture every unit in-house. No distributors, no middlemen, no markups.

1-Year Warranty

On-site service included with every purchase nationwide.

Pan-India Delivery

Dispatched within 3–5 business days to all states & UTs.

GeM Registered

Approved vendor for government & public-sector procurement.

PRODUCT RANGE

Sanitary Napkin *Vending Machines*

Six models — from a simple push-button dispenser to a fully cloud-connected ethernet unit — so every institution finds the perfect fit.

ESSENTIAL

Push Button VM

ORDER CODE: LYRA/SNVM/PB

Reliable, maintenance-free and accessible for everyone. The Push Button VM is the ideal choice for schools, hostels and government institutions where simplicity and zero-cost access matter most. Electronic operation in a durable sheet metal cabinet — built to last years with minimal upkeep.

Mandatory Compliance — Solid Waste Management Rules, 2016

Under the Government of India's Solid Waste Management Rules, institutions are required to provide hygienic disposal facilities for sanitary waste. Lyra Incinerators are CPCB-compliant and meet all prescribed standards, making compliance seamless for your institution.

ECO DISPOSAL

Sanitary Napkin *Incinerators*

CPCB-compliant, odour-free incineration — in three sizes to match every institution's scale, from a single restroom to a full hospital.

COMPACT

Lyra Micro

ORDER CODE: LYRA/SND/MICRO

Small footprint, big impact. The Lyra Micro is purpose-built for single-restroom or small-unit installations where space is limited. An automatic digital temperature controller and unique thermal insulation deliver safe, smokeless and odour-free incineration with just 1.25 kW of power.
